50 kunlik lug‘at dasturi

Har kuni 20 ta so‘z yoki ibora: aniq ma’no, o‘zbekcha tarjima, yaqin ma’noli so‘zlar, so‘z oilasi, tabiiy birikmalar va kontekstli misollar.

O‘rganish tartibi

25 daqiqa: yangi so‘zlar va misollar.

10 daqiqa: tarjimani yopib, ma’noni eslash.

5 daqiqa: oldingi kunlardagi so‘zlarni takrorlash.

Ushbu qo‘llanma o‘quv materiali. Misollar mualliflik mashqlari bo‘lib, rasmiy IELTS savollari emas. Lug‘atni o‘rganish imtihon balini kafolatlamaydi.

So‘zni gap ichida o‘rganing.

1. Avval ma’noni tushuning.

Definition sodda inglizcha ta’rifni, sarlavha esa shu ma’noga mos o‘zbekcha tarjimani beradi. Bir so‘zning boshqa ma’nolari ham bo‘lishi mumkin.

2. Tayyor birikmalarni yodlang.

Collocations satrida ikki tabiiy birikma berilgan. Ularni alohida so‘z bilan birga ayting va o‘z gapingizda ishlating.

3. Misolni qismlarga ajrating.

Gapning egasi va kesimini toping. Keyin obyekt va qo‘shimcha ma’lumotni ajrating. Butun gapning mazmunini o‘zbekcha ayting.

4. Yaqin ma’noli so‘zlarni ehtiyotkor ishlating.

Near synonyms har doim o‘zaro almashtirilmaydi. Approx. taxminiy yaqinlikni, contextual esa faqat ayrim kontekstlarda moslikni bildiradi. Ba’zi terminlarda qisqa izoh yoki misol turi berilgan.

5. So‘z oilasini ajrating.

n = ot; v = fe’l; adj = sifat; adv = ravish. Phrasal v = frazali fe’l. Chiziq qo‘yilgan bo‘lsa, bu ma’no uchun odatiy hosila shakl kiritilmagan. Terminli iboralarda asosiy so‘zning oilasi berilishi mumkin.

6. Eslab aytish orqali takrorlang.

Har bir kunni 1, 3, 7, 14 va 30 kundan keyin takrorlang. Jadvaldagi kataklarga belgi qo‘ying. So‘z tanish tuyulishi uni mustaqil ishlata olishingizni anglatmaydi.

Reading va Listening konteksti

Har bir kun uchun o‘quv vaziyati berilgan. Misol gaplar ushbu mavzudagi matn yoki suhbatni tushunishga yordam beradi; ular to‘liq test yoki audioyozuv emas.

Collocations: organic farming; organic food
Word family: organically (adv)
Example: The farm produces organic vegetables for local shops.

08. biodegradable - biologik parchalanadigan
Definition: Able to be broken down biologically. | Near synonyms: biologically decomposable
Collocations: biodegradable packaging; biodegradable materials
Word family: biodegrade (v); biodegradation (n)
Example: The company is testing biodegradable packaging.

09. compost - kompost
Definition: Decayed organic material used to improve soil. | Near synonyms: organic fertiliser (contextual)
Collocations: make compost; compost heap
Word family: compost (v); composting (n)
Example: Gardeners add compost to improve the soil.

10. solar energy - quyosh energiyasi
Definition: Energy obtained from sunlight. | Near synonyms: solar power
Collocations: generate solar energy; solar energy system
Word family: solar (adj)
Example: The school uses solar energy to heat water.

Mini-check: Tarjimalarni yoping. 10 ta so‘zning ma’nosini ayting va 2 ta misolni o‘zbekchaga tarjima qiling.

Environment

IELTS Listening: Environmental change, conservation and energy use

11. wind power - shamol energiyasi
Definition: Electricity generated using wind. | Near synonyms: wind energy
Collocations: generate wind power; wind power project
Word family: -
Example: The island invested in a wind power project.

12. hydropower - gidroenergiya
Definition: Electricity generated using moving water. | Near synonyms: hydroelectric power
Collocations: hydropower plant; generate hydropower
Word family: hydroelectric (adj)
Example: The dam supplies water to a hydropower plant.

13. conserve - tejamoq
Definition: To protect or use carefully. | Near synonyms: save, preserve
Collocations: conserve water; conserve energy
Word family: conservation (n)
Example: Turning off unused lights helps conserve energy.

Science

IELTS Reading: Scientific explanations, experiments and measurements

01. hypothesis - faraz
Definition: A proposed explanation that can be tested. | Near synonyms: testable explanation
Collocations: test a hypothesis; research hypothesis
Word family: hypothesise (v); hypothetical (adj)
Example: The experiment was designed to test the hypothesis.

02. experiment - tajriba
Definition: A controlled test used to investigate something. | Near synonyms: test, trial
Collocations: conduct an experiment; laboratory experiment
Word family: experiment (v); experimental (adj)
Example: Students conducted an experiment using different soil samples.

03. observation - kuzatuv
Definition: Information gathered by watching carefully. | Near synonyms: monitoring, recorded noticing
Collocations: direct observation; careful observation
Word family: observe (v); observer (n)
Example: Careful observation revealed changes in the animals' behaviour.

04. theory - nazariya
Definition: A structured explanation supported by evidence. | Near synonyms: explanatory framework
Collocations: scientific theory; develop a theory
Word family: theoretical (adj); theorise (v)
Example: The theory explains how these processes are connected.

05. evidence - dalil
Definition: Information that supports or challenges a claim. | Near synonyms: support, supporting data
Collocations: strong evidence; evidence suggests
Word family: evident (adj); evidently (adv)
Example: The evidence suggests that conditions changed gradually.

06. variable - o‘zgaruvchi
Definition: A factor that can change. | Near synonyms: changing factor
Collocations: independent variable; dependent variable
Word family: vary (v); variation (n); variable (adj)
Example: Temperature was the independent variable in the experiment.

07. sample - namuna
Definition: A small part selected for examination. | Near synonyms: specimen, subset
Collocations: blood sample; collect samples
Word family: sample (v); sampling (n)
Example: The researchers collected water samples from the lake.

08. laboratory - laboratoriya
Definition: A place equipped for scientific work. | Near synonyms: lab
Collocations: research laboratory; laboratory equipment
Word family: -
Example: The samples were analysed in a laboratory.

09. measurement - o‘lchov
Definition: A value obtained by measuring. | Near synonyms: reading, measured value
Collocations: accurate measurement; take measurements
Word family: measure (v); measurable (adj)
Example: The team took measurements every thirty minutes.

10. accuracy - haqiqiy qiymatga yaqinlik; aniqlik
Definition: Closeness to the correct or true value. | Near synonyms: correctness
Collocations: measurement accuracy; improve accuracy
Word family: accurate (adj); accurately (adv)
Example: The instrument was checked to improve measurement accuracy.

Mini-check: Tarjimalarni yoping. 10 ta so‘zning ma’nosini ayting va 2 ta misolni o‘zbekchaga tarjima qiling.

Science

IELTS Reading: Scientific explanations, experiments and measurements

11. precision - o‘lchovlarning takroriy mosligi; aniqlik
Definition: Consistency of repeated measurements. | Near synonyms: repeatability (contextual)
Collocations: high precision; measurement precision
Word family: precise (adj); precisely (adv)
Example: Repeated readings were compared to assess precision.

12. phenomenon - hodisa
Definition: An event or process that can be observed. | Near synonyms: occurrence, observable event
Collocations: natural phenomenon; unusual phenomenon
Word family: phenomena (plural); phenomenal (adj) [remarkable]
Example: The scientist offered an explanation for the phenomenon.

13. particle - zarracha
Definition: A very small piece of matter. | Near synonyms: tiny piece
Collocations: dust particle; subatomic particle
Word family: particulate (adj/n)
Example: The filter removes small particles from the air.

14. atom - atom
Definition: The smallest unit retaining an element's identity. | Near synonyms: unit of an element
Collocations: hydrogen atom; atomic structure
Word family: atomic (adj)
Example: A water molecule contains two hydrogen atoms.

15. molecule - molekula
Definition: A group of chemically bonded atoms. | Near synonyms: bonded group of atoms
Collocations: water molecule; molecular structure
Word family: molecular (adj)
Example: The diagram shows the structure of a water molecule.

16. compound - birikma
Definition: A substance containing chemically combined elements. | Near synonyms: chemical combination
Collocations: chemical compound; organic compound
Word family: compound (adj/v) [other senses]
Example: Water is a compound of hydrogen and oxygen.

17. reaction - reaksiya
Definition: A process in which substances change chemically. | Near synonyms: chemical change
Collocations: chemical reaction; reaction rate
Word family: react (v); reactive (adj)
Example: The reaction produced a colourless gas.

18. substance - modda
Definition: A particular kind of matter. | Near synonyms: material
Collocations: chemical substance; harmful substance
Word family: -
Example: The laboratory identified the unknown substance.

19. organism - organizm
Definition: An individual living thing. | Near synonyms: living thing
Collocations: living organism; marine organism
Word family: -
Example: Each organism plays a role in its ecosystem.

20. cell - hujayra
Definition: The basic structural unit of living things. | Near synonyms: biological unit
Collocations: blood cell; cell division
Word family: cellular (adj)
Example: The microscope allows students to examine plant cells.

Recall: 5 ta birikmani ayting; 3 ta o‘z gapingizni tuzing. **Review:** +1 [ ] +3 [ ] +7 [ ] +14 [ ] +30 [ ]

Science

IELTS Listening: Scientific explanations, experiments and measurements

01. genetics - genetika
Definition: The study of inherited characteristics. | Near synonyms: study of heredity
Collocations: human genetics; genetics research
Word family: gene (n); genetic (adj)
Example: Genetics helps explain how some traits are inherited.

02. evolution - evolyutsiya
Definition: Change in inherited traits across generations. | Near synonyms: biological change over generations
Collocations: biological evolution; evolutionary process
Word family: evolve (v); evolutionary (adj)
Example: The passage describes the evolution of early birds.

03. gravity - tortishish kuchi
Definition: The attraction between objects with mass. | Near synonyms: gravitational attraction
Collocations: force of gravity; Earth's gravity
Word family: gravitational (adj)
Example: Gravity keeps the Moon in orbit around Earth.

04. energy - energiya
Definition: The capacity to do work or cause change. | Near synonyms: capacity for work
Collocations: kinetic energy; energy transfer
Word family: energetic (adj); energise (v) [everyday senses]
Example: Moving objects have kinetic energy.

05. force - kuch
Definition: A push or pull on an object. | Near synonyms: push, pull
Collocations: apply force; gravitational force
Word family: force (v); forceful (adj) [other senses]
Example: A greater force changed the object's motion.

06. mass - massa
Definition: The amount of matter in an object. | Near synonyms: quantity of matter
Collocations: total mass; measure mass
Word family: massive (adj) [very large]
Example: The students measured the mass of each sample.

07. density - zichlik
Definition: Mass per unit of volume. | Near synonyms: mass concentration
Collocations: high density; material density
Word family: dense (adj); densely (adv)
Example: The two materials have different densities.

08. velocity - tezlik
Definition: Speed in a specified direction. | Near synonyms: directional speed
Collocations: constant velocity; change in velocity
Word family: -
Example: The vehicle moved at a constant velocity.

09. acceleration - tezlanish
Definition: The rate at which velocity changes. | Near synonyms: rate of velocity change
Collocations: constant acceleration; acceleration rate
Word family: accelerate (v)
Example: The graph shows the car's acceleration over time.

10. radiation - nurlanish
Definition: Energy travelling as waves or particles. | Near synonyms: radiant energy
Collocations: solar radiation; radiation exposure
Word family: radiate (v); radioactive (adj) [specific sense]
Example: The instrument measures solar radiation at ground level.

Mini-check: Tarjimalarni yoping. 10 ta so‘zning ma’nosini ayting va 2 ta misolni o‘zbekchaga tarjima qiling.

Science

IELTS Listening: Scientific explanations, experiments and measurements

11. microscope - mikroskop
Definition: An instrument for viewing very small objects. | Near synonyms: magnifying instrument
Collocations: electron microscope; use a microscope
Word family: microscopic (adj); microscopy (n)
Example: Students examined the cells under a microscope.

12. telescope - teleskop
Definition: An instrument for observing distant objects. | Near synonyms: astronomical viewing instrument
Collocations: space telescope; optical telescope
Word family: telescopic (adj)
Example: The telescope detected light from a distant galaxy.

13. discovery - kashfiyot
Definition: Something found or learned for the first time. | Near synonyms: finding
Collocations: scientific discovery; make a discovery
Word family: discover (v); discoverer (n)
Example: The discovery changed how researchers understood the site.

14. breakthrough - katta yutuq
Definition: An important advance that overcomes a difficulty. | Near synonyms: major advance
Collocations: scientific breakthrough; technological breakthrough
Word family: -
Example: The discovery represented a breakthrough in battery research.

15. empirical - tajribaga asoslangan
Definition: Based on observation or experiments. | Near synonyms: observational, evidence-based
Collocations: empirical evidence; empirical study
Word family: empirically (adv)
Example: The argument needs stronger empirical evidence.

16. theoretical - nazariy
Definition: Based on ideas or models rather than direct testing. | Near synonyms: conceptual, model-based
Collocations: theoretical framework; theoretical model
Word family: theory (n); theoretically (adv)
Example: The team compared observations with the theoretical model.

17. replicate - takrorlamoq
Definition: To repeat a study or process. | Near synonyms: repeat, reproduce
Collocations: replicate a study; replicate results
Word family: replication (n)
Example: Another laboratory tried to replicate the results.

18. verify - tekshirib tasdiqlamoq
Definition: To check that something is correct. | Near synonyms: confirm, check
Collocations: verify information; verify results
Word family: verification (n); verifiable (adj)
Example: The researchers repeated the test to verify the result.

19. validity - asoslilik
Definition: The extent to which a measure or conclusion is appropriate. | Near synonyms: soundness, appropriateness
Collocations: test validity; internal validity
Word family: valid (adj); validate (v)
Example: The authors discussed the validity of their conclusions.

20. reproducible - qayta takrorlanuvchi
Definition: Able to be produced again under stated conditions. | Near synonyms: repeatable, replicable (contextual)
Collocations: reproducible results; reproducible research
Word family: reproduce (v); reproducibility (n)
Example: Clear methods make research more reproducible.

Recall: 5 ta birikmani ayting; 3 ta o‘z gapingizni tuzing. **Review:** +1 [ ] +3 [ ] +7 [ ] +14 [ ] +30 [ ]

Har kuni ushbu 4 bosqichni bajaring:

Ma’no

Tasodifiy 10 ta so‘zni tanlang. Ta’rif yoki tarjimani ko‘rmasdan ayting.

Birikma

5 ta so‘z uchun bittadan tabiiy birikma yozing. So‘ng kitob bilan solishtiring.

Gap

3 ta yangi gap tuzing. Gapda ega, kesim va zarur obyekt borligini tekshiring.

Kontekst

O‘qiyotgan matningizdan yoki tinglayotgan audiodan 2 ta o‘rgangan so‘zni toping. Ularning shu joydagi ma’nosini tushuntiring.

Bir-biriga yaqin, lekin aynan teng bo‘lmagan so‘zlar

Accuracy = haqiqiy qiymatga yaqinlik; precision = takroriy o‘lchovlarning o‘zaro mosligi.
Revenue = xarajatlar ayrilmagan tushum; profit = xarajatlar ayrilgandan qolgan foyda.
Correlation = statistik bog‘liqlik; causation = sababiy ta’sir.
Misinformation = noto‘g‘ri axborot; disinformation = aldash maqsadidagi noto‘g‘ri axborot.
